Jason Croft

Registered Patent Attorney | Shareholder

Jason Croft focuses his work on patent procurement, strategic counseling, and IP transactions. A registered patent attorney, he prepares and prosecutes patent applications, performs IP due diligence, provides litigation support and advises clients on the valuation of patent portfolios. He has managed patent-related matters for some of the world's most innovative companies including Google, Intel and Red Hat.

Jason's technical experience encompasses a range of technologies including software, computer architecture, electronic and computer hardware, wireless communication systems and devices, distributed systems, biometrics, integrated circuits, semiconductor manufacturing, medical devices and computer-related technologies.

Prior to joining Maschoff Brennan, Jason was a patent attorney at a major law firm in Silicon Valley. He was also Director of Intellectual Property and Corporate Counsel at a Silicon Valley startup where he was a key player in the company's growth since its inception. He also served as an attorney at a leading patent brokerage and M&A advisory firm. During law school, Jason had the distinct honor of working for the Honorable James Ware, the former Chief Judge of the U. S. District Court in the Northern District of California. Before law school, he engineered robotic systems at a major medical device corporation.

In his free time, Jason enjoys rebuilding motorcycles, automating his home and spending time outdoors with his family.

Education
