expertise

Technology Litigation • Patent Litigation • Commercial Litigation
• Commercial Arbitration • International Arbitration •
International Practice

Jason has over fifteen years of experience in intellectual property litigation, commercial arbitration, and licensing. His engagements have involved a broad range of technologies and industries. In computers and consumer electronics, he has litigated and advised companies on design and utility patents relating to smartphone software and hardware, cellular telecommunications standards, self-balancing human transporters (“hoverboards”), drones, human-computer interfaces, global positioning systems, computer animation software, and field programmable gate array hardware. In the life sciences, he has experience with monoclonal antibody therapeutics and diagnostics, vaccines, and medical devices.

Jason has represented clients in matters in the U.S. District Courts, the International Trade Commission, the U.S. Patent and Trademark Office, Tokyo District Court, and a variety of international arbitral fora.

Jason has extensive experience representing clients in Asia and spent four years practicing in Tokyo.
